## ANN PRAZER

Mount Shop Supervisor

Field Museum

Chicago, Illinois USA

Ann Prazer is a Mount Shop Supervisor and has worked as a mountmaker at the Field Museum in Chicago, Illinois, since 2006. She designs, fabricates, and installs mounts for permanent, temporary, and traveling exhibits.

Ann enjoys handling the wide variety of objects at the Field Museum, and the fabrication and problem solving required for their display.

She earned a BFA in Studio Art from Miami University, with a concentration in painting and photography. A fan of museums since childhood, she focused on museum studies coursework and learned metalworking before graduating in 2003.

A personal interest of Ann's is teaching herself to make things she can't find elsewhere, especially custom hardware and smaller furniture pieces.
